Invention—Instantly!

Complete for only \$1.98 De Luxe Model—with extra high power, extra clear and sharp "reproducer" unit.

A New Hobby Gives You a Brand New Interest!

Yes, anyone from 5 to 80 can draw or sketch or paint anything now . . . the very first time you use the "Magic Art Reproducer" like a professional artist—no matter how "hopeless" you think you are! An unlimited variety and amount of drawings can be made. Art is admired and respected by everyone. Most hobbies are expensive, but drawing costs very little, just some inexpensive paper, pencils, crayons, or paint. No costly upkeep, nothing to wear out, no parts to replace. It automatically reproduces anything you want to draw on any sheet of paper. Then easily and quickly follow the lines of the "picture image" with your pencil . . . and you have an accurate original drawing that anyone would think an artist had done. No guesswork, no judging sizes and shapes! Reproduces black and white and actual colors for paintings. Also makes drawing larger or smaller as you wish. Anyone can use it on any desk, table, board, etc.—indoors or outdoors! Light and compact to be taken wherever you wish. No other lessons or practice or talent needed! You'll be proud to frame your original drawings for a more distinctive touch to your home. Give them to friends as gifts that are "different," appreciated.

Have fun! Be popular! Everyone will ask you to draw them. You'll be in demand! After a short time, you may find you can draw well without the "Magic Art Reproducer" because you have developed a "knack" and feeling artists have—which may lead to a good paying art career.

NOW YOU CAN SOLVE "TOUGH" MATH PROBLEMS LIKE THIS!

$$47892 \times 39921 = ?$$

AS EASY AS $1 + 1 = 2$

GET A BETTER JOB WITH HIGHER PAY,
SECURITY IN THIS ATOMIC AGE!

Yes, in just hours you can turn into a "math wizard" even though you know little about arithmetic! Surprise your friends with your "E-Z MATH" ability . . . enjoy job security and advancement . . . a better job . . . increase your self-confidence and prestige—all through amazing new "E-Z MATH".

The world is moving fast these days. In good times and bad the ability to handle mathematical problems in our age of electronics, automation and nuclear science is becoming more and more necessary for promotion on the job and for higher pay. If you don't think you have what it takes—and if you believe that "math" is beyond your power—then you're in for the biggest surprise of your life!

For now you CAN learn to DIVIDE, MULTIPLY, ADD and SUBTRACT figures not only quickly and easily—but also in a FRACTION of the time the average person requires! You can actually solve such tough problems as multiplying a 5-figure number by a 7-figure number in your head without ever touching pencil to paper . . . or dividing 836791 by 284, for example, in exactly 15 seconds—even if you "flunked" math in school!

The secret of success in "math" is NOT laborious study and wearisome practice—but, on the contrary, knowledge of SPECIAL SHORT CUTS, LITTLE-KNOWN METHODS of calculation and arithmetical "tricks" that take the work and gamble out of figuring. These methods—so new and radical that they have not yet been incorporated in our school systems—take but a few hours to learn. Yet they permit you to OUT-THINK and OUT-FIGURE the average high school and college graduate who hasn't had the benefit of these amazing methods! You can even BEAT AN ELECTRIC CALCULATOR in answering many problems!

Figure with
SPEED and **ACCURACY**!

"E-Z MATH" shows you in plain, easy-to-understand language how to cut figuring time in HALF and even in QUARTERS—and at the same time arrive at the correct answer in every case! The methods and short cuts you learn in "E-Z MATH" are fool-proof . . . require almost NO memorization . . . and are so practical that you'll find yourself using these systems virtually every day. You'll become an expert in no time at all. Before you know it—you're ready to move into that important job you've always wanted . . . to drive ahead and in greater responsibility at higher pay . . . and to amaze, surprise and delight your friends with your new magic powers of mental arithmetic! Yes, "math" will open up new opportunities for you, since the person with "math" know-how can just about "write his own ticket."

E-Z MATH PROGRAM

© Entire contents copyright 1963

DEPT. R-97, 285 Market St.
Newark, NEW JERSEY

This man is multiplying numbers that should ordinarily produce the answer in about 4 minutes. The answer appears on his blackboard in less than 15 seconds flat! Yet he knows little about math! As a matter of fact he failed arithmetic in school. Read on to discover the fantastic new method that even a child can learn easily in just a few short hours—at home . . .

CAN YOU SOLVE THESE EVERY-DAY BUSINESS AND SOCIAL ARITHMETIC PROBLEMS IN THE TIME ALLOWED? YOU CAN DO THEM EASILY EVEN WHEN BLINDFOLDED—AFTER YOU'VE READ "E-Z MATH"!

Blindfold yourself and have someone call the following numbers to you as you add them:

739
463
906
785
642

(Solve in 6 seconds) ?

9864372 = ? (Solve in 9 seconds)
8146

$\frac{4}{7} \times \frac{9}{4} = ?$ (Solve in 4 seconds)

1 3/4 % interest per month amounts to what percentage yearly?
(Solve in 4 seconds)

367 X 75 = ?
(Solve in 3 seconds)

WHAT IS "E-Z MATH"?

"E-Z MATH" is based on an amazing new method of working with numbers—easier to learn and remarkably faster and more accurate than you ever dreamed possible when you took math in school. You'll be shown the newest way of reading numbers—just as though they were words—and of adding and subtracting them almost at a glance—INSTANTLY! You'll be shown a unique new technique for adding hundreds and even thousands of numbers without ever making a mistake . . . yet you'll never add higher than eleven! Yes, from now on you'll whiz through all figuring problems without wasting your valuable time—through income tax, checking grocery lists, homework—as fast as a calculator. You'll actually ENJOY using them to get ahead in business!

WHAT THEY SAY:

"My 10-year old had nearly always failed arithmetic with old-method arithmetic. Then he found my copy of 'E-Z MATH'. Now in less time than you can put the numbers on a blackboard, he can multiply 8391726547 by 12. It's amazing and incredibly easy. I use it myself on my job and my wife uses it to check grocery lists."

A Father

"You have a unique new teaching approach for which I compliment you. It's the best I have ever seen. Pupils' marks seem to be climbing as a result. Should help in any job. Excellent for home tutoring use."

SCHOOL PRINCIPAL

"Thank you! Thank you! Thank you! All our children are using your system too, and it is terrific. My husband and I are using it—and it works! My husband has already received a job advancement with tremendous boost in pay. Best investment we have ever made!"

AMAZING CIRCUS of 6 GROWING ANIMALS

\$1.00

Watch them grow BIGGER and BIGGER

Amazing but true! Watch these toy animals grow like CRAZY faster and faster, bigger and bigger every day right before your eyes. Both children and adults will laugh and thrill with excitement as Ozzie the Ostrich grows his own full-feathered plume, Simba the Lion grows a long flowing mane, Smiley the Porcupine grows needles of hair, Sleepy the Hound Dog grows sad droopy ears, and Scamper the Squirrel grows a big bushy tail. And they keep growing bigger and bigger for weeks and weeks of thrills and excitement.

The Secret of Growth

These amazing toy pets actually feed and start to grow as soon as you "lead" them to a plastic cup or glass of water. The secret is a new scientific process that releases

a horticultural seed that starts the miracle of life and growth. No food or special care is required to grow your own animal circus.

You can even give the little fellows "haircuts" if you want. Not yet sold in stores. You must order direct by mail. So don't delay, be first in your neighborhood. Mail coupon today on full money back guarantee.

CAROL SLOANE . . . Songs From The Heart!

"I want to avoid being labeled a jazz singer. I'd rather just do good material the best way I can."

It's Carol Sloane talking and she means what she says. She sings from the heart and what comes out is big and beautiful with a sound that makes you sit up and listen. This winsome 24-year-old brunette sings guilelessly and bewitchingly of life, sublime and otherwise. In the tradition of the few rare-gifted singers who came before her, she is both a keenly individual stylist and a vocalist of vast interpretive resources.

Born in Providence, Rhode Island, Carol began singing with a local band when she was fourteen. Five years later she made her way to Europe with a road company of "Kiss Me Kate", playing the irrepressible Bianca. After a year and a half run on the Continent, Carol came back home to sing at a local night club. From there she toured as feature vocalist for the Elgart's big band, and gained experience that contributed greatly to her tonal quality and lyric phrasing.

Then came the big break that every entertainer needs.

At the Newport Jazz Festival in the summer of 1961, Carol was asked to substitute for an ailing singer, Annie Ross. When Carol stood up there and sang . . . a new star was born.

Her albums, "Out Of The Blue" and "Live At 30th Street", are excellent examples of her captivating style. Since her Newport appearance she has been booked into the finest supper clubs in the country. Carol Sloane is on her way . . . UP, UP, UP!

Adventure! Discovery! Excitement! All await you. And all you need do is fill in and mail the coupon below to Archie Comics.

You'll thrill to the wonders of the living sea — the microscopic marvels of the insect world — the strange mammal creatures.

Diving saucers will take you down to the ocean's floor. Underwater TV will reveal the little-known inhabitants of the deep. You'll see the unusual parrotfish, the lionfish, the clownfish, and scores of others.

What is an insect? Is it true that insects will conquer man and rule the earth? What is the urge that makes us destroy? THE INSECT WORLD answers these questions and brings you face to face with hundreds of insects such as the Ten Spotted Dragonfly, The Cicada Killer, and the Tiger Beetle.

Imagine . . . a "flying" animal that glides through the air and has its own parachute . . . a whale that has only one tooth — **NINE FEET LONG!** These are but some of the many strange and unusual creatures you'll meet in your books.

- Illustrated with life-like full color photographs and pictures.
- Beautiful library bindings specially constructed for lifetime wear under the most rugged use.

Don't delay. Send for your 3 books today and save (\$1.35 off the regular price). The complete price of \$7.50 includes all costs; postage, shipping, handling. You pay nothing more. This offer valid only if sent on the coupon.

How to make really sure you get a Cadet this Christmas

Tell Santa you want one  tell Mom  tell Dad 
tell Grandma and Grandpa  tell Uncle and Auntie 
put it in writing  leave notes around the house.

The Cadet, you know, points the way to ten thousand miles of bike-hiking fun. Look at the dial. It shows every exciting mile you ride. And the Cadet's fire-orange pointer shows how fast you travel . . . up to 50 miles an hour. Works like a car speedometer! Shockproof, too. Really looks sharp in its streamlined case. And it fits

all bikes. Imagine how it will look on yours. You'll be the talk of your block with your genuine Cadet Bike Speedometer. Just remember to let folks know you want one. Why not start right now by tearing out this ad and putting it where it will do the most good? Maybe at Dad's place at the table tonight? MERRY CHRISTMAS!
